MANTAS, WOBEGONGS, & CLOWNFISH... OH MY!

Biodiversity at its best...that is the only way to describe diving in Indonesia. We will be exploring one of the best areas of Indonesia: Raja Ampat. From muck diving for some of the most interesting critters in the sea, to diving with big pelagics, this trip has it all!

Raja Ampat has been appointed by UNESCO as a World Heritage Site. There are more than 1800 different species of animals - more than anywhere else in the world. Add in warm water, soft corals, sea fans and amazing hard corals and you will be spoiled on every dive!

We'll spend twelve nights on the MSY Aurora. This luxurious live-aboard offers top amenities including spacious cabins, private bathrooms, large salon, dive area, expansive leisure decks, dedicated camera room, covered outdoor dining area, laundry and even massage service. This is one of the most comfortable dive vessels out there!

Indonesia is an epicenter of biodiversity, hosting a greater variety of marine life than anywhere else on earth. The South China Sea, the Pacific Ocean, and the Indian Ocean converge here on the world's largest archipelago of more than 18,000 islands. Just off Indonesia's coastline, thrive more than 600 coral and 3,000 fish species. The scuba diving is nothing short of outstanding. There's exhilarating drift diving, extensive reef diving, fantastic night diving, unique muck diving and breathtaking steep walls.

Don't miss out on this trip of a lifetime!
